

Without wood where would we be?

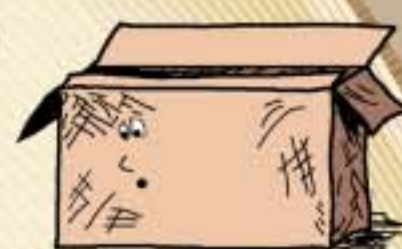

By Johanna from St. John's Lutheran School
Portage, Wisconsin

Without wood where would we be?
I would wake up on the ground, you see.

Without wood where would I sit?
Or where would I hang my kitchen mitt?

How would I read Fox and Socks?
Or what would take the place of a cardboard box?

Under what would you sit on a hot summer day?
Or what fort would we children play?

There'd be no paper airplanes to sail through the air,
And no little booths to sell things at the fair.

There'd be no Kleenex to dry my tears,
And no paper towels to wipe up my smears.

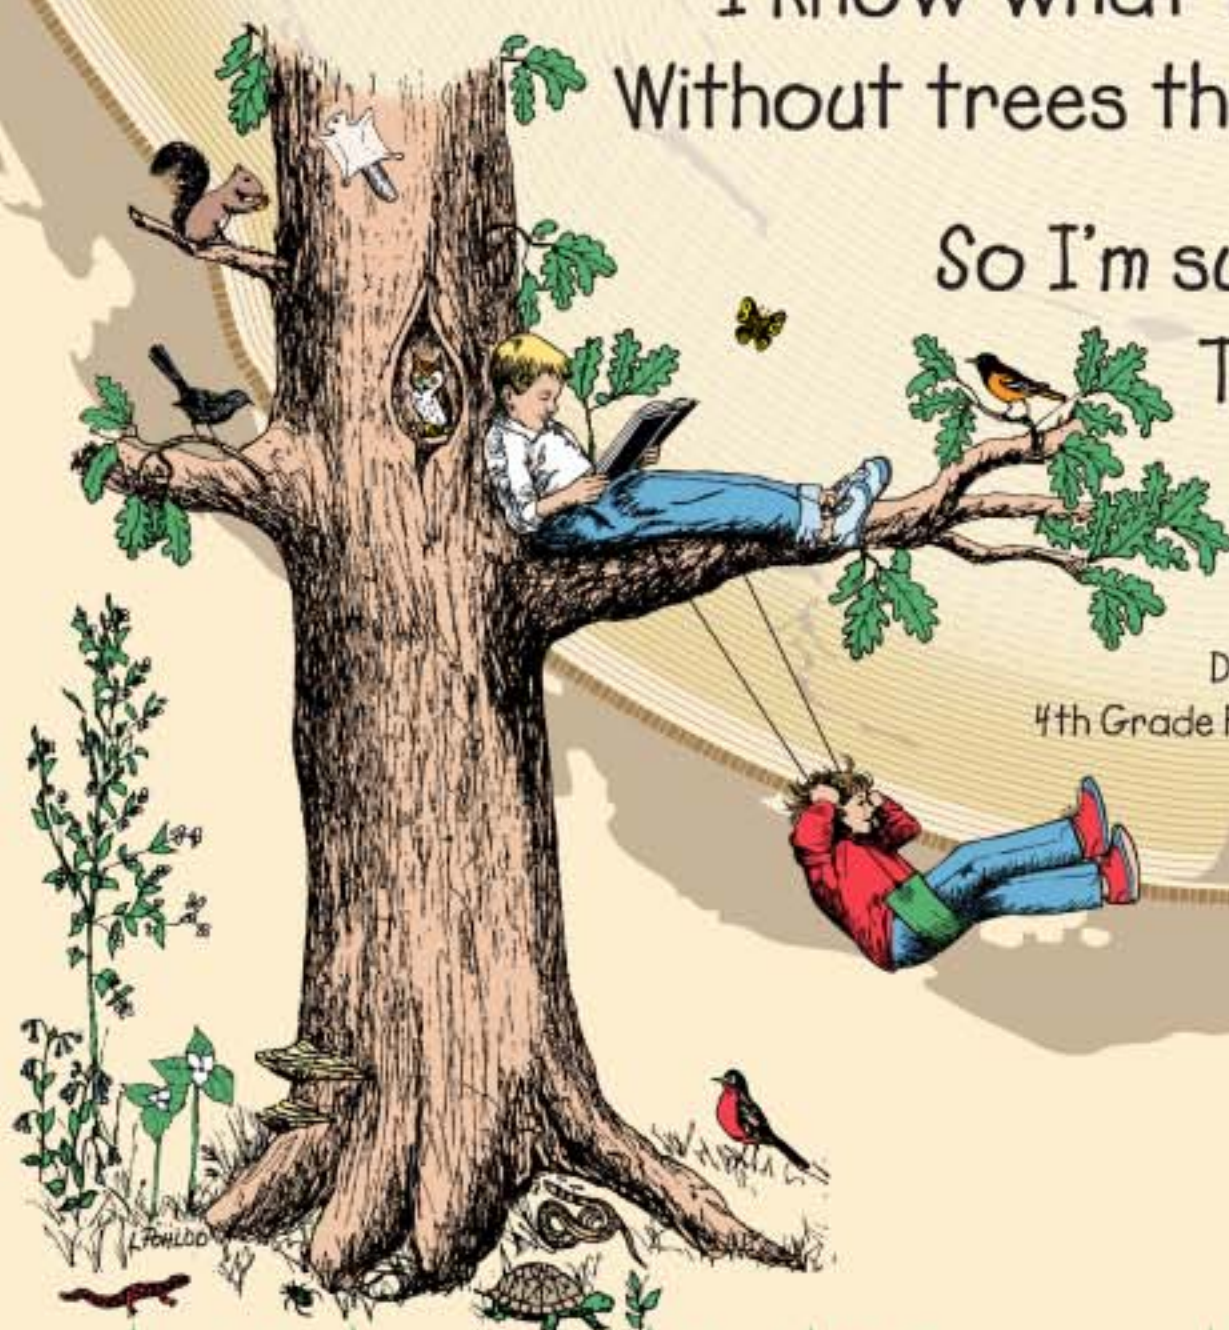

How could I have a chest-of-drawers?
Or what would take the place of my shiny wood floors?

I know what they say has to be true.
Without trees there'd be hardly any oxygen for you.

So I'm sure you will agree,
That trees are very
important for you and me.
